

MUSTOFA KHOIRUDIN

FULLSTACK DEVELOPER

Perumnas Blok C No.119, Karawang, Jawa Barat | mustofakhoirudin5157@gmail.com
www.linkedin.com/in/mustofa-khoirudin-335a0a341

SUMMARY

Practical Fullstack Developer experienced in building web applications using C, C#, C++, PHP, JavaScript, Vue.js, and Golang. Skilled in database management (SQL Server, PostgreSQL), API integration, and developing scalable frontend and backend systems. Proficient with frameworks such as CodeIgniter, Laravel, and .NET to deliver efficient and reliable solutions aligned with business needs.

PROFESSIONAL EXPERIENCE

Internship, PT GS BATTERY KARAWANG PLANT

SEPT 2025 - FEB 2026

- Assisted in developing and maintaining internal web-based applications using C# (.NET) to support operational and production data management.
- Developed backend services and RESTful APIs with C# (.NET) for data processing and system integration.
- Collaborated on frontend integration using JavaScript/Vue.js to ensure seamless communication with backend services.

B&B TOUR AND TRAVEL

JUN 2022 - JULY 2025

- Designed and developed web interfaces using JavaScript and Vue.js to support booking and customer management systems.
- Optimized frontend performance and user experience for faster and more responsive applications.
- Collaborated with team members to test, validate, and maintain system functionality.

PT Menara Terus Makmur

MAY 2026 - NOW

- Developed and enhanced web-based applications to support business digitalization and operational excellence initiatives.
- Built responsive and user-friendly interfaces using JavaScript and Vue.js, improving application performance and user engagement.
- Analyzed business requirements and transformed them into scalable technical solutions aligned with organizational objectives.
- Performed application testing, debugging, and maintenance to ensure system stability, security, and functionality.
- Collaborated with stakeholders and development teams to deliver efficient digital solutions and support continuous process improvement.

PROJECTS

Energy Monitoring – PT GS Battery

SEPT 2025 - JAN 2026

- Monitored and analyzed energy consumption data to support efficiency and cost optimization initiatives.
- Assisted in developing basic monitoring tools and reports for operational energy usage.
- Collaborated with the team to identify opportunities for improving energy efficiency.

Digitalization Staff | PT Menara Terus Makmur (Astra Group)

MAY 2026 - NOW

- Developed and maintained digitalization applications to improve operational efficiency, document management, and workplace safety processes.
- Contributed to the development of multiple internal systems, including Andon, E-Memo, Predictive Maintenance, Uploading Document, and E-Hazard platforms.
- Designed and implemented responsive user interfaces using JavaScript and Vue.js, ensuring optimal usability and application performance.

- Collaborated with cross-functional teams to gather requirements, analyze business processes, and deliver technology-driven solutions aligned with organizational needs.
- Participated in system testing, debugging, deployment, and maintenance activities to ensure reliability and continuous improvement of applications.
- Supported digital transformation initiatives by automating manual processes, improving information accessibility, and enhancing operational visibility through web-based solutions.
- Assisted in the development of monitoring and reporting features to support decision-making and operational effectiveness.

Software Engineer - (SHE Department) | PT AICC

JULY 2025 - DES 2025

- Developed and maintained digital solutions to support Safety, Health, and Environment (SHE) operations and compliance requirements.
- Collaborated with SHE personnel and stakeholders to analyze business processes and translate operational needs into effective software solutions.
- Designed and implemented web-based applications to improve incident reporting, hazard management, document control, and workplace safety monitoring.
- Participated in system development lifecycle activities, including requirements gathering, development, testing, deployment, and maintenance.
- Optimized application performance and user experience to ensure reliable and efficient system usage across departments.
- Supported digital transformation initiatives by automating manual processes and enhancing data accessibility for SHE-related activities.
- Provided technical support, troubleshooting, and continuous improvements to ensure system stability and operational effectiveness.

Software Engineer | B&B Tour and Travel

JUN 2022 - JULY 2025

- Developed and maintained web-based applications to support travel and tourism business operations, including booking management and customer services.
- Designed and implemented responsive user interfaces using modern web technologies to enhance user experience and operational efficiency.
- Collaborated with stakeholders to gather business requirements and deliver scalable solutions aligned with organizational objectives.
- Developed and optimized features related to reservation management, customer information, travel packages, and operational reporting.
- Conducted system testing, debugging, and maintenance to ensure application reliability, security, and performance.

SKILLS

C, C#, C++, PHP JavaScript, Vue.js	Golang, Laravel, Node.js, Django REST API Development	Database Management Git & Version Control
---------------------------------------	--	--

EDUCATION

Undergraduate Student – Informatics Faculty of Information and Communication Technology (FICT) Horizon University Indonesia • Currently studying software development and programming fundamentals.	AUGT 2023 - NOW
--	------------------------

ADDITIONAL INFORMATION

- **Languages:** English.
- **Certifications:** Samsung Solve Tomorrow, EC-Council (NDE), Alibaba Cloud
- **Awards/Activities:** Achievements & Project Leadership, Achievements & Leadership Experience, Honors, Achievements, and Leadership
